

Summer Reading List 2010
Entering 7th Grade

In the Middle School, the English teacher will begin the year by looking at the Required Reading. We suggest that students read the required book near the close of summer vacation so that they have a vivid remembrance of what they have read when classes begin. Though different assignments may be given according to grade level, students can be assured that their teacher will ask them to respond to the books with knowledge and insight through discussions, tests, and writing assignments. In addition to reading the required book, we expect students to read at least one other book from the "Suggested List." Students should read books they have not previously read.
